## **The Birth of Christ and First Responses!**

MANY Christians remain ignorant of Biblical revelation about the birth of Christ; and strangers to the profound celebration of both Angels and humans at Messiah's birth! **THUS, LET US take a Biblical look at the EVENTS of Christ's birth, in the sequence in which they took place; and let us be INSTRUCTED from the RESPONSES TO HIS BIRTH!**

**I. GABRIEL VISITED ZACHARIAS: Luke 1:5-25** -- By the time this scene finished, Zacharias had been made "unable to speak"... and his previously barren wife had become pregnant!

**According to 1 Chronicles 24:7-19**, there were 24 courses of priests who served. The courses were counted from the spring of the year. Scholars tell us that **Zacharias' course was the 8th**. Thus, he would have been serving **around the first of June**. When his responsibility was finished, he went to his home and soon thereafter, his wife (Elizabeth) conceived, (Luke 1:23-25). Luke also tells us that **it was in the 6th month of Elizabeth's pregnancy that Mary conceived by the Holy Spirit**, (Luke 1:24-26, 36).

With these calculations we have Biblical evidence that the actual birth date of Jesus, (6 months after John's birth), would have likely

been in September or October. **REGARDLESS, we know** that Jesus died precisely on the day of **PASSOVER** and that the Holy Spirit came precisely on the day of **PENTECOST**. **We know** that God's Old Testament Holy Days CYCLED the complete plan of redemption so that Old Testament believers were celebrating the coming FULL SALVATION, every year!

**In the Spring of the year** they celebrated: **(1)** Passover; **(2)** Unleavened Bread; **(3)** First-Fruits and **(4)** PENTECOST.

**And in the Fall of the year**, they celebrated **(5)** The Feast of Trumpets; **(6)** The Day of Atonement and **(7)** The Feast of the Tabernacles. **Glorious reality: Jesus already has and/or will fulfill all seven of these grand redemption celebrations!**

**The Bible shows *that is was in the spring of the year*** when JESUS FULFILLED the first four of these seven. And it is in the BEGINNING of our being saved that Christians experience the New Covenant fulfillment of these **first four aspects of God's FULL SALVATION!**

**Thus**, the first coming of Jesus (As well as His Second Coming!) likely was and likely will be precisely in the time of the Fall Feasts of Trumpets/Day of Atonement and Tabernacles. **For indeed, when Jesus came the first time— What happened?** "THE WORD was made flesh and dwelt (**tabernacled!**) among us..." (John 1:14). Moreover, what happened at His first coming was a veiled foretaste of things yet to come, when for all eternity the redeemed will be in a continual "Feast of Tabernacles!"— A continual spiritual feast of dwelling with Christ!

**THEREFORE, we would be wise to build into our lives a sacred, yearly calendar of FULL REDEMPTION/FULL SALVATION:**

**(1) Christ** Died for us. **(2)** We are separated from sin and unto **Christ**. **(3) Christ** was resurrected for us and we are raised to new life in Him. **(4) Christ is** BAPTIZING and Indwelling and Empowering His Church by the Holy Spirit. **(5) Christ** came! And Christ is coming back— for and with His saints. **(6) Christ:** As He is, so we are in Him! Saints are predestined to be like Him. **(7) Christ:** All who are in Christ will see Him FACE TO FACE and will rule and reign with Him for all the millennial reign and for all eternity.

**NOTE: THE NEW TESTAMENT DOES NOT CALL UPON NEW TESTAMENT CHRISTIANS TO LITERALLY OBSERVE THE SEVEN FEASTS OF THE LORD! THE LORD'S SUPPER** is THE NEW COVENANT time and place DURING WHICH WE ARE exhorted to remember JESUS... UNTIL HE COMES! **THUS, THE LORD'S SUPPER ENCOMPASSES ALL OF THE FEASTS IN NEW TESTAMENT FULFILMENT.**

**II. GABRIEL VISITED MARY: Luke 1:26-38--** Six months after Elizabeth conceived John by Zacharias, Mary (a virgin) conceived the Son of God by the direct agency of the Holy Spirit. This miracle is astounding and glorious! Moreover, there are two statements in these Scriptures which we must always be ready to apply to our lives:

**The Angel's confession:** *"For with God nothing shall be impossible!"* **Mary's confession:** *"Behold, the handmaid of the LORD; be it unto me according to THY WORD!"* May these be guiding, daily confessions!

**III. MARY VISITED ELIZABETH: Luke 1:39-56--** When Mary arrived in the presence of Elizabeth, **John** (six months in Elizabeth's womb) **jumped for joy!** (Luke 1:41-46) [**Yes, pregnant MOM—** inside of you is more than a mere fetus! There

cradles a living child who already knows and experiences a lot more than you might think! The message from these Scriptures is **'DO NOT ABORT'**... and also: **COMMUNICATE** with your unborn child! GIVE YOUR UNBORN child a healthy environment of God's Word and PRAISE TO GOD!] Note: Mary stayed with Elizabeth for about 3 months and returned to Nazareth.

**NOTE:** There was no worship of Mary. The total focus was on the coming of Jesus, the Son of God; and the need for a response of FAITH! This announcement fills every enlightened, saved sinner with profound joy and celebration; and gives hope to those yet lost. **NOTE:** Christ was in the womb of a virgin! John was in his mother's womb. John leaped for joy! This was total, focused, undiluted celebration. Let us learn from six-month-still-in-the-womb John: **JOY at Christ's coming is exclusive!** Jesus is not merely 'Center Stage'— no one else is on stage and He needs no props or creative scenery from us! **NOTE:** Like all of us, Mary was a sinner! She knew it and rejoiced in, ***"God my Saviour!"***

***The birth of Christ is God coming down to rescue His enemies from the wrath we all so richly deserve. It is the ultimate rescue operation from the ultimate disaster.***  
**When eyes of faith see and receive the Saviour— no artificial stimulation, no dazzling sights and sounds are needed!**

**IV. MARY RETURNED HOME, JOHN BAPTIST WAS BORN, THE ANGEL OF THE LORD APPEARED TO JOSEPH: Luke 1:57-80 and Matthew 1:18-25--** When Mary, (three months pregnant), returned home— needless to say, Joseph was shocked. Mary and Joseph were betrothed to each other. During this period, they were considered to be husband and wife, although the marriage had not been consummated. In the will of God, they were to remain

VIRGINS during this period. At first, Joseph was heartbroken to learn that Mary was pregnant. **It seemed obvious that she had fornicated.** Joseph could have had her stoned or could have divorced her. (Matt 1:18-25)

**However,** after the Angel of the LORD appeared to Joseph in a dream, Joseph received Mary; and together they bore a great shame from society. They were looked upon as fornicators. **NOTE: Jesus lived 33 years under the cloud of being an illegitimate. (John 8:41)** What a price Jesus paid for us sinners, even long before He ever got to the cruel cross of Calvary!

**REALITY:** The angel did not announce or set up the beginning of a big secular and/or religious holiday. He announced that Jesus was coming to *'save His people from their sin!'* In all of the Biblical 'snap shots' of joy and celebration at Christ's birth there is simplicity and singularity of focus. **The joy is this:** Jesus came to save His people from their sin! That is reason enough for the joy and rejoicing!

**V. JOSEPH AND MARY WENT TO BETHLEHEM. JESUS WAS BORN: Luke 2:1-7. [INN: Literally, "guest room"...] A totally different word is used when actually speaking of an Inn, such as the Good Samaritan used: Luke 10:25-37. The average home in Bethlehem would have had upper living quarters and a lower portion for their animals to use at night. If visitors came, they would normally stay with the family in the upper portion in the guest area. In Mary and Joseph's case, this was likely the home of someone that they knew; but the guest room was already filled — thus, they went to the lower level, among the animals.**

When Jesus was born, after being securely wrapped, **He was laid in an animal's feeding trough.** Again, based on the information under the first point of this article, the probable time of Christ's

birth was in the fall of the year. This also gives a good explanation as to why there was “no room in the Inn... or guest room”.

For in addition to the taxing, **the Feast of Tabernacles** would have drawn as many as two million Israelites to Jerusalem. Bethlehem, just five miles north, would have experienced much overflow. **The Feast of Tabernacles** looked forward to a time of completion and fulfillment, a time when God would dwell with men! **And unknown to the masses, Jesus did just that:** “The WORD became flesh, and dwelt (tabernacled!) among us...!” (John 1:14)

**LET US BE WATCHING AND WAITING! JESUS IS COMING BACK!** (Revelation 19-22) CHRISTIAN: Even now, Jesus by His Holy Spirit, dwells within, ‘tabernacles’ within you! CHRISTIAN: Your heart is His home! WELCOME HIM!

**LET US Be Still! Stand in Awe!** The celebration began long before the Angelic announcements to Mary and Joseph! To a prophet, who had been the bearer of so much sad news and warnings of impending judgment and wrath, awesome prophecies give reason to CELEBRATE— *“Now all this was done, that it might be fulfilled which was spoken of the LORD by the prophet, saying, **Behold a virgin** shall be with child, and shall bring forth a son, and they shall call his name, **EMMANUEL**, which being interpreted is, **GOD with us.**”* (Matt. 1:22-23; Isa. 7:14; 9:6-7; 11:1-9) **EMMANUEL! GOD with us!**

**THE TRAGEDY OF MANY:** “O, yes, I can work in listening to a cantata; and they usually sing something about Emmanuel. But I have parties to plan, parties to go to, and presents to wrap, company to prepare for, and miles to travel— the list is almost endless. **No, I have never stopped and personally meditated upon ‘GOD WITH US’...** It sounds too deep, too serious... not

much fun...” [Reality: Cultural Christmas is so demanding of time, energy, and resources... most have nothing left for much else!]

**VI. THE ANGELS PROCLAIMED MESSIAH'S BIRTH, THE SHEPHERDS VISITED THE CHRIST-CHILD IN THE ANIMALS' QUARTERS: Luke 2:8-20--** The angels were rejoicing that God was bridging the un-bridgeable gap between holy God and sinful man, **“UNTO YOU A SAVIOUR IS BORN, JESUS CHRIST THE LORD!”**

**REMEMBER:** Angels were the first to sin! As a result, all sinning angels are doomed forever. They received no mercy, no forgiveness. They are reserved in judgment: **2 Peter 2:4!** *The fallen angels receive holy justice and wrath! Yet, fallen men receive mercy and grace. The Elect Angels have no complaint against God! Rather, they lead the way in WORSHIP!* We have much to learn from their praise and much to learn from the Shepherds who responded to divine revelation with faith, praise and with spreading the GOOD NEWS!

**LET US BE INSTRUCTED,** as from heaven’s angels to earth’s lowly shepherds— they all celebrated the coming of the Saviour, Christ the LORD! **And God is shouting to us** from the CELEBRATING Shepherds who quickly became evangelists, preachers— making known what they had heard and seen! *“And the shepherds returned, glorifying and praising God for all the things that they had heard and seen, as it was told unto them.”* (Luke 2:15-20) [**Honest QUESTION: Am I allowing** the annual Holiday system to steal CHRIST and lasting, HOLY CELEBRATIONS OF CHRIST from my experience?]

**LET US DARE to focus on the utterly amazing:** **1.** Jesus Christ came in the flesh to save undeserving rebels from the just and eternal wrath of God in hell! **2.** Jesus Christ came to set the rebels free from self, sin and satan; and to make them His own sons and

daughters, servants, friends, saints, and co-laborers! **3. The Birth of Christ is about salvation from ultimate and eternal destruction!** Rejoicing in the birth of THE SAVIOUR who came to deliver us from our sins— this deserves the singular, exclusive focus of our whole hearts, even as EVERY angel and human who first welcomed His birth model for us!

**THUS: THE LORD'S SUPPER SERVICES SHOULD BE very CROWDED... every time we observe it— next for us, December 20!**

**VII. JESUS WAS CIRCUMCISED; PRESENTED IN THE TEMPLE; and ADORED BY SIMEON AND ANNA: Luke 2:21-38. LET US ALL MEDITATE THROUGH** the Scriptures that focus upon the incredible PRAISE and WORSHIP that came forth from the Angels, the Shepherds, Simeon, and Anna!

***O COME LET US ADORE HIM!***

**VIII. THE WISEMEN COME AND WORSHIP KING JESUS: Matthew 2:1-12** - By this time, Jesus was from 1-2 years old and **living in a house**, not in the animals' stall. The wise men did not worship the star, or Joseph or Mary. **They only had gifts for JESUS!** With eyes of faith they looked at the young child Jesus and saw and worshiped the King of Kings! **O, what an amazing and wonderful day it is when JESUS IS WHO WE DESIRE and when JESUS IS ENOUGH!**

**IX. JOSEPH, MARY AND JESUS FLED TO EGYPT. HEROD SLAUGHTERED CHILDREN: Matthew 2:13-15; 2:19-23; Luke 2:39-47.** Yes, Herod was afraid of Jesus. So, in his attempt to kill Jesus, he slaughtered all the young boys of Bethlehem and the surrounding area, ages up to two. Later, Joseph, Mary and Jesus would return to Israel and take up residence in Nazareth.

**Who can measure REDEMPTION'S cost? O let us walk through these Scriptures and BEHOLD THE LAMB OF GOD who stepped down from His Glory, all the way to the Cross for sinners! "O COME LET US ADORE HIM!"**

**Great Grace to you all! James**

### 4. Covid Is Not The Threat

By Paul Craig Roberts

[PaulCraigRoberts.org](http://PaulCraigRoberts.org)

November 25, 2020

Covid is a real virus. It is a threat to a small minority of the population—primarily people with poor immune systems and comorbidities.

There are inexpensive ways of boosting immune systems with supplements, such as zinc, vitamins C and D3, Beta Glucan, and NAC. But public health officials have not educated the public about the value of supplements in the Covid battle. The reason is that so-called public health officials are shills for Big Pharma’s profits, and Big Pharma regards good immune systems as a hindrance to profits.

There are also two effective, safe, and inexpensive cures for Covid. One is the combination of hydroxychloroquine (HCQ), azithromycin, and zinc.

**The other is the combination of ivermectin, azithromycin, and zinc.**

See [this](#).

The use of these known cures has been blocked by public health officials, such as Tony Fauci of the National Institute of Health. Again, the reason is Big Pharma's profits. The use of these effective cures negates the profit opportunity of a new vaccine.

So many have died by denying treatment while we wait for a vaccine that [some experts worry will be more dangerous than Covid](#).

Keeping Covid alive as a threat serves other harmful purposes. As I wrote on November 13, the [main threat from Covid is not the disease](#). When Covid subsides as a threat, the increased powers of government over citizens will remain.

In Europe and in parts of the US, it is clear that the people understand that the lockdowns and mask rules are a bigger threat to them than Covid. In Germany there have been [mass protests](#), which are spreading elsewhere in Europe.

Klaus Madersbacher says Germans have memories of where the use of arbitrary power leads. Unlike the American "anti-fascist" Antifa and BLM movements which conduct kristallnachts against white businesses, a real anti-fascist movement in [Germany fights against the lockdown](#).

The only reason that the "pandemic" continues is that Western public health officials are financially tied in one way or another with Big Pharma, and public health officials are using their positions in the interest of these financial connections.

## 5. Asymptomatic People Do Not Spread COVID-19

By [Joseph Mercola](#)

[Mercola.com](#)

December 5, 2020

According to media reports, COVID-19 “cases,” meaning positive PCR test results, are soaring across the U.S. and around the world, leading to the implementation of measures that in some cases are stricter than what we endured during the initial wave.

However, as detailed in several recent articles, including “[Why COVID-19 Testing Is a Tragic Waste](#),” PCR tests are being used incorrectly, resulting in the false appearance of widespread transmission.

In reality, the vast majority of 5. people who end up with a positive test will not develop symptoms and aren’t infectious. Needless to say, if you’re not infectious, you pose no health risk to anyone, and being placed under what amounts to house arrest is nothing but cruel and unusual punishment for no reason whatsoever.

### **Positive Test Rates Have No Bearing on Mortality Rates**

In The Highwire report above, Del Bigtree breaks down how excessively high test sensitivity leads to falsely elevated “case” numbers that in reality tell us nothing about the situation at hand. As noted by Bigtree, what’s missing from the COVID-19 conversation is the actual death rate.

)

**“If COVID is a deadly virus, what should we see when cases increase?” he asks. The answer, of course, is an increase in deaths. However, that’s not what’s happening.**

Aside from a small bump at the beginning, when doctors were unsure of the appropriate treatment and some states recklessly and irresponsibly sent infected patients into ill equipped nursing homes, the death rate has remained relatively flat while positive test rates have dramatically risen and fallen in intervals.

In the video, Bigtree features a November 4, 2020, tweet<sup>1</sup> by White House coronavirus adviser Dr. Scott Atlas showing the number of positive tests (aka “cases”) in blue and

COVID-19 related deaths in red, since the start of the pandemic up until the end of October 2020.

As you can see, there's no correlation between the positive test rate and subsequent deaths.

### Vast Majority of 'COVID-19 Patients' Are Asymptomatic

One of the explanations for why positive test rates and mortality do not go hand in hand is the simple fact that a vast [majority of those testing positive for SARS-CoV-2 are asymptomatic](#). They simply aren't sick. The PCR test is merely picking up inactive (noninfectious) viral particles.

In one study,<sup>2</sup> which looked at pregnant women admitted for delivery, 87.9% of the women who tested positive for the presence of SARS-CoV-2 had no symptoms. Another study<sup>3</sup> looked at a large homeless shelter in Boston. After a cluster of COVID-19 cases was observed there, researchers conducted symptoms assessments and testing among all guests residing at the shelter over a two-day period.

Of 408 people tested, 147, or 36%, were positive, yet symptoms were conspicuously absent. Cough occurred in only 7.5% of cases, shortness of breath in 1.4% and fever in 0.7%. All symptoms were "uncommon among COVID-positive individuals," the researchers noted.

## **Asymptomatic Transmission Is Very Rare**

During a June 8, 2020, press briefing, Maria Van Kerkhove, the World Health Organization's technical lead for the COVID-19 pandemic, made it very clear that [asymptomatic transmission is very rare](#), meaning an individual who tests positive but does not exhibit symptoms is highly unlikely to transmit live virus to others.

*"We have a number of reports from countries who are doing very detailed contact tracing. They're following asymptomatic cases, they're following contacts, and they're not finding secondary transmission ... it's very rare, and much of that is not published in the literature," Van Kerkhove said.*

Just one day later, Dr. Mike Ryan, executive director of the WHO's emergencies program, backpedaled Van Kerkhove's statement, saying the remarks were "misinterpreted."<sup>4</sup> Needless to say, when you're trying to justify the implementation of a vast surveillance network, it's no good to admit a vast majority of people are having their privacy infringed upon for no good reason whatsoever.

## **Asymptomatic People Pose No Risk to Others**

Most recently, a study in Nature Communications assessed the risk posed by asymptomatic people by looking at the data from a mass screening program in Wuhan, China.

The city had been under strict lockdown between January 23 and April 8, 2020. Between May 14 and June 1, 2020, 9,899,828 residents of Wuhan city over the age of 6 underwent PCR testing. In all, 92.9% of the entire city population participated in the testing. Of these, 9,865,404 had no previous diagnosis of COVID-19 and 34,424 were recovered COVID-19 patients.

Not a single one of the 1,174 people who had been in close contact with an asymptomatic individual tested positive.

In all, there were zero symptomatic cases and only 300 asymptomatic cases detected. (The overall detection rate was 0.3 per 10,000.) Importantly, not a single one of the 1,174 people who had been in close contact with an asymptomatic individual tested positive.

Additionally, of the 34,424 participants with a history of COVID-19, 107 individuals (0.310%) tested positive again, but none were symptomatic. As noted by the authors:<sup>6</sup>

*“Virus cultures were negative for all asymptomatic positive and repositive cases, indicating no ‘viable virus’ in positive cases detected in this study ... The 300 asymptomatic positive persons aged from 10 to 89 years ...*

*The asymptomatic positive rate was the lowest in children or adolescents aged 17 and below (0.124/10,000), and the highest among the elderly aged 60 years and above (0.442/10,000). The asymptomatic positive rate in females (0.355/10,000) was higher than that in males (0.256/10,000).”*

## **Asymptomatic People Have Low Viral Load**

Interestingly, when they further tested asymptomatic patients for antibodies, they discovered that 190 of the 300, or 63.3%, had actually had a “hot” or productive infection resulting in the production of antibodies. Still, none of their contacts had been infected.

In other words, even though asymptomatics were (or had been) carriers of apparently live virus, they still did not transmit it to others. As noted by the authors, “there was no evidence of transmission from asymptomatic positive persons to traced close contacts.” They further added:<sup>7</sup>

*“Compared with symptomatic patients, asymptomatic infected persons generally have low quantity of viral loads and a short duration of viral shedding, which decrease the transmission risk of SARS-CoV-2.*

*In the present study, virus culture was carried out on samples from asymptomatic positive cases, and found no viable SARS-CoV-2 virus. All close contacts of the asymptomatic positive cases tested negative, indicating that the asymptomatic positive cases detected in this study were unlikely to be infectious.”*

## **Reinfected Individuals Are Not Infectious Either**

The same held true for people who tested positive a second time after having recovered from an active infection.

*“Results of virus culturing and contact [sic] tracing found no evidence that repositive cases in recovered COVID-19 patients were infectious, which is consistent with evidence from other sources,” the authors said.<sup>8</sup>*

The researchers also pointed out that virus cultures and genetic studies have shown the virulence of SARS-CoV-2 appears to be weakening over time, and that newly infected

individuals are more likely to be asymptomatic and have a lower viral load than the cases seen earlier in the outbreak.

What does all of this tell us? It tells us there's no reason to panic simply because the number of positive tests are on the rise. Remember, the more people you test using a PCR test that is set to an excessive cycle threshold, the more false positives you'll get.

As explained in "[Asymptomatic 'Casedemic' Is a Perpetuation of Needless Fear](#)," by using an excessive cycle threshold that amplifies the viral RNA to the point that it detects inactive (noninfectious) particles is at the heart of this so-called pandemic. It's what keeps the pandemic narrative going, when in fact it's long since over.

### **CDC Uses Questionable Sources to Counter China Study**

Interestingly, the same day the China study came out, the U.S. Centers for Disease Control and Prevention updated its guidance<sup>9,10</sup> on mask wearing, claiming asymptomatic people account for more than half of all transmissions. Where did they get that from?

The two references listed as support for that claim include a study<sup>11</sup> from July 2020, and CDC data that haven't even been published yet.<sup>12</sup> It just says it was "submitted" for publication sometime in 2020, therefore, we are unable to provide any source link.

The CDC makes no mention of the China study, which included nearly 10 million individuals.

CNN, which reported the CDC's update, parroting the idea that asymptomatic spread is why it's so important to wear a mask, also made no mention of the landmark study from China. Curious, don't you think?

It's almost as though the CDC doesn't want us to know we have nothing to fear from healthy people.

### **German Lawyers Sue Fact Checkers Over Censorship**

Many doctors, scientists and lawyers have now become wise to the fact that it is these flawed tests, and their fraudulent use, that is keeping the fear narrative alive — and they're taking action.

In the video above, Ben Swann talks to Dr. Reiner Fuellmich,<sup>13</sup> a consumer protection trial lawyer<sup>14</sup> and founding member of the German Corona Extra-Parliamentary Inquiry Committee (Außerparlamentarischer Corona Untersuchungsausschuss<sup>15</sup>),<sup>16</sup><sup>17</sup> which is seeking to expose how fraudulent testing has been and continues to be used to engineer the appearance of a dangerous pandemic when in fact there is none.

The committee is now filing the first of many lawsuits to come, this one against so-called fact checkers on social media. They opted to file a defamation lawsuit on behalf of Dr. Wolfgang Wodarg, a former member of the German Congress and the Council of Europe who has been an outspoken critic of PCR testing, as it cannot be used to diagnose infection.

Social media companies have labeled Wodarg's statements as "false," and by filing a defamation suit, the burden of proof now falls on the fact checkers to prove that they are correct. In other words, to win, the fact checkers must prove that PCR tests diagnose active infection. The scientific evidence proves they don't, so this case could turn out to be pivotal in the fight against the big tech censorship that keeps the fearmongering alive.

### **COVID-19 Pandemic — The Greatest Psyop in History?**

While Fuellmich and his team make no claims about WHY the pandemic is being kept alive using fraudulent science, they are unequivocal in their assertion that it is in fact a fake pandemic and that it has had devastating health and economic consequences around the world.

For the why, we have to turn to the geopolitical scene to see what narratives have rolled out in tandem with the pandemic. What we find is that leaders across the world are now calling for a "reset" of the global economy in the wake of the destruction brought by the pandemic. In reality, of course, it is the global response to the pandemic that created the economic devastation, not the virus itself.

Either way, the call to "build back better" is being heard around the world, and such plans include the elimination of conventional capitalism, free enterprise and [private ownership](#), replacing them with a [technocratic resource-based economic system](#) in which energy and social engineering run the economy rather than pricing mechanisms such as supply and demand.

Leaders are also calling for invasive health surveillance, and there appear to be plans in place to use biometric surveillance via vaccines, all of which feed into the technocratic system in which this kind of mass surveillance is not only paramount but also foundational.

The reason surveillance is so crucial is because the functioning of this system hinges on artificial intelligence-driven social engineering and manipulation of the masses. Unless people are locked into what could be described as a digital prison, they won't comply with what's coming.

Hook everyone up to a digital centralized banking system, a digital ID and a social credit score, however, and few will have the fortitude to object or speak out against the unelected rulers. Your entire life could easily be upended with the push of a button.

We've already seen how many people have not only been deplatformed for speaking out against one thing or another this past year, they've also had their digital payment accounts closed down, effectively destroying their ability to earn a living. Imagine if there were nothing but a centralized digital currency system and your accounts got shut down. How would you live?

### **Fear Is a Highly Effective Manipulation Tool**

No person in their right mind would agree to this [Great Reset plan](#) if they were aware of all the details and its ultimate implications for humanity as a whole. So, to roll it out, they had to use psychological manipulation, and fear is the most effective tool there is.

As [explained by psychiatrist Dr. Peter Breggin](#), there's an entire school of public health research that focuses on identifying the most effective ways to frighten people into accepting desired public health measures.

By adding confusion and uncertainty to the mix, you can bring an individual from fear to anxiety — a state of confusion in which you can no longer think logically — and in this state, you are more easily manipulated.

The following graphic illustrates the central role of fearmongering for the successful rollout of the Great Reset.

## Psychological Operations Guide

In closing, testing asymptomatic people and isolating people who test positive even when they have no symptoms is a key strategy that keeps the fear level high.

There simply aren't enough hospitalized COVID-19 patients to keep the ruse going, and far too few actually die to make the narrative work. That's why we hear nothing about those statistics anymore.

Instead, all we hear about are the "cases" — the positive tests which have no bearing on mortality rates. Fear of asymptomatics also drive the narrative that we must all wear face masks everywhere we go, because you don't know who might be infected and not know it. It instills fear of others, as even seemingly healthy people might make you deathly ill.

The featured study from Wuhan demonstrates the fallacy of such fears. People who test positive but have no symptoms are not infectious and pose no risk to others. They don't need to wear masks and they don't need to be isolated. In short, we don't need to fear each other.

## 6. The COVID-19 RT-PCR Test: How to Mislead All Humanity. Using a “Test” To Lock Down Society

It is time for everyone to come out of this negative trance, this collective hysteria, because famine, poverty, massive unemployment will kill, mow down many more people than SARS-CoV-2! **PLEASE CLICK HERE:**

*Red Zones, the facemask, social distancing, the closing down of schools, colleges and universities, no more family gatherings, no birthday celebrations, music, the arts: no more cultural events, sport events are suspended, no more weddings, “love and life” is banned outright.*

*And in several countries, Christmas is on hold ...*

*It’s the destruction of people’s lives. It is the destabilization of civil society. And for What? The Lies are sustained by a massive media disinformation campaign. 24/7, Incessant and repetitive “Covid alerts” for the last ten months. ... It is a process of social engineering.*

**Manipulation of the Estimates. The RT-PCR Tests are Misleading.**

*What they want is to hike up the numbers so as to justify the Lockdown. Millions of covid-Positive Tests.*
